

香港資優教育學院
The Hong Kong Academy for Gifted Education

Mathematics Talk

Puzzles, Surprises, and IMO Problems

Organised by The Hong Kong Academy for Gifted Education

This seminar aims to give a brief introduction about the International Mathematical Olympiad. In particular, we will discuss problems related to number theory, suitable for students at various levels. Topics and problems in number theory (e.g. modular arithmetic, properties of prime numbers, perfect numbers), suitable for students at various levels, will be discussed.

Dr Koopa Koo (International Mathematical Olympiad Hong Kong Committee Member) earned his PhD degree in mathematics at the University of Washington. Dr Koo also won the top scholar award from the University of Washington.

Date	22 April 2010 (Thursday)
Time	6:30 – 8:00 p.m. (Registration : 6:15 p.m.)
