"Walk Your Path" – Discovering Your Potentials

Experiential Learning Workshop (F1LSS002W)

Introduction of the Programme

One of the biggest challenges which adolescents encounter is the inadequate direction of who they are, and who they can become in the future. Positive psychology focuses on understanding individuals' strengths, character, and well-being, which, together, promotes a satisfying and flourishing life. Teenagers can be very much benefit from positive education in their journey of discovering their talents.

The programme "Walk Your Path" – Discovering Your Potentials Experiential Learning Workshop leads students to understand themselves with a strength-based theoretical model and elements in expressive arts therapy. With a more crystalized and positive self-image, they are to develop their own frame of reference in life planning, and subsequently a locomotive action plan.
