(Token- required)

Parent-child programme/ Introductory level

“1+1” Group

Dr. Richard Lau, Clinical Psychologist, HKAGE
Programme Officer, HKAGE

Application Deadline
7 March 2022
12:00 noon

Intended Learning Outcomes

Upon completion of the programme, students should be able to:

1. tackle the problems with creative problem-solving skills;
2. face the challenges in everyday lives, think out of the box, and challenge oneself;
3. learn to appreciate and accept gifted characteristics through interaction and collaboration with peers;
4. consolidate the learning through performance/product showcase.

Upon completion of the programme, parents should be able to:

1. apply the creative problem-solving skills in daily life issues;
2. enhance creativity by adopting alternative solutions when facing challenges;
3. appreciate and accept children's uniqueness;
4. recognise children's learning of creative problem solving through portfolio and product showcase.

◆ Introduction

Who says “1+1=2”?

We dare to think, dare to act, dare to innovate, making “1+1>2” possible.

“1+1” Group is a parent-child programme for gifted students and their parents. The programme design is based on the Creative Problem Solving (CPS) model (Isaken, Treffinger, Dorval, & Nollar, 2000), and infused affective elements such as parent-child communication, self-understanding, exploration of value systems and peer learning in an interactive learning environment. Through this programme parents and children can enhance their creative problem-solving skills, make innovations and achieve breakthroughs. Children and their peers also have opportunities to communicate, collaborate and share their achievements through a range of activities. They will learn to appreciate each other and enhance their problem solving, collaboration, questioning, presentation, and multi-perspective thinking skills.
