Intended Learning Outcomes

Upon completion of the programme, participants should be able to:

1. broaden their mathematical knowledge in the topic of geometry on the basis of junior secondary mathematics curriculum;
2. strengthen their problem solving and higher-order thinking skills;
3. learn more about the scope of International Mathematical Olympiad Training.

◆ Introduction

- Maths Ignition is an introductory programme. It is designed as a series of courses on different topics and is developed as a bridging programme to the 'IMO Training' programme.
- 'Maths Ignition- Geometry' is the second course of the series. It aims to broaden students' knowledge in Geometry on the basis of junior secondary mathematics curriculum through exploration and investigation approach. Students who have completed 2 out of 5 courses in Maths Ignition series might be considered for direct admission to the 'Introduction to Olympiad Mathematics 2023 (Phase I)' (E1IM0008C), an intermediate-level programme offered by IMO Hong Kong Committee.
- This programme is co-organized with International Mathematical Olympiad Hong Kong Committee (IMOHKC).

◆ Target Participants

- S1 to S3 HKAGE student members
- Class size: 30
- All applicants **MUST** attend the Aptitude Test held in HKAGE on 14 May 2022 except for those who have attended the Aptitude Test held on 21 Aug, 20 Nov 2021, or 19 Feb 2022

* Not for students who have enrolled in:

1. CGMO Training (Phase I) (E1IM0007C) or
2. Introduction to Olympiad Mathematics (Phase I) (E1IM0008C) or
3. Any phase of International Mathematics Olympiad (IMO) Training before.

Remarks:

- Only selected students could join the Aptitude Test held on 14 May 2022.
- **If the application is over-subscribed:** students will be selected randomly in attending the Aptitude Test.
- **If the application is over-subscribed:** students who have attended the interview on 19 Feb 2022 would not be allowed to take the test on 14 May 2022. Their results on 19 Feb 2022 will be used for this programme.
- A notification email will be sent on 6 May 2022 for the application result of the Aptitude Test.
- All unselected students will be regarded as their application of this programme unsuccessful.

This programme is same as "Introductory Course in Mathematical Olympiad: Maths Ignition- Geometry (MATS1112)" in 19/20 school year.

◆ Medium of Instruction

Cantonese with English handouts

◆ Pre-requisite

Students should know the basic knowledge of the following:

1. congruence and similarity;
2. properties of triangles and different types of quadrilaterals;
3. Pythagoras' Theorem

◆ Aptitude Test

- Students who wish to apply for this programme must take a general aptitude test on **14 May 2022 (2:00 p.m. – 4:00 p.m. or 4:00 p.m. – 6:00 p.m.)**, except for those who have attended the Aptitude Test held on 21 Aug, 20 Nov 2021, or 19 Feb 2022.
- This general aptitude test consists of 100 multiple choice questions which covers a wide range of topics in mathematics. The purpose of the test is to figure out the applicant's knowledge in different fields of mathematics in order to choose the most suitable students for different programmes. Neither under-qualified nor over-qualified students will be admitted.
- The next aptitude test is tentatively scheduled on **20 Aug 2022**. The result of an aptitude test will be valid for one year. If a student takes the test more than once, the latest result will prevail. The following table lists the programmes for which the results of this general aptitude test will apply.

Remarks:

1. All aptitude tests will only be arranged on the designated dates. No make-up test will be arranged.
2. No Calculator is allowed.
3. Please bring along with your Identification Card, e.g. HKID, student ID.
4. Please arrive at the venue 15 minutes prior to the Aptitude Test begins.

If students who have selected to join the aptitude test are absent without any reasons and prior notification provided, it will result in a lower priority in joining the aptitude test next time when they apply.
