Dr Richard Kai-Cheung LAU, Clinical Psychologist,
HKAGE

Intended Learning Outcomes

Application Deadline

11 November 2022

12:00 noon

Upon completion of the programme, student members should be able to:

1. understand the concept and benefits of creativity, technology literacy, and data literacy;
2. be willing to further promote the levels of creativity, technology literacy, and data literacy;
3. be willing to develop those undeveloped or underdeveloped creativity, technology literacy, and data literacy; and
4. understand ways to promote or develop creativity, technology literacy, and data literacy.

◆ Introduction of the Talk

One of the identifying criteria for giftedness is creativity. Creative gifted students often generate original ideas. Creativity is not only innate, but also needs to be able to recombine the information in a novel way to generate unique ideas after reading and referring to a lot of information. Therefore, to be able to continuously improve creativity, gifted students need to have a higher ability to master new technologies, and to understand and analyze the hidden meaning behind the data after referring to huge quantity of data. In this talk, the speaker will explain the concepts of creativity, technology literacy and data literacy, and how to improve these skills. A question and answer session will be provided at the end of the lecture.

◆ Schedule

Date	Time	Venue
26 November 2022 (Saturday)	9:30 a.m. – 11:30 a.m.	Zoom Meeting
