**Coding Talk (Level III):**

# AI applications and Future AI Engineer

Dr LAM King Tin

Lecturer, Department of Computer Science and Engineering,  
The Chinese University of Hong Kong

**Application Deadline**  
**23 Dec 2020 12:00 noon**

## **Intended Learning Outcomes**

Upon completion of the programme, participants should be able to:

1. explain the latest development and applications of AI.
2. explain the overview of a career in the AI industry.
3. equip the essential skills and mindset to be an AI engineer.

## ◆ Introduction

We have witnessed the rapid development of Artificial Intelligence (AI) in the past decade. Voice assistants, face recognition for unlocking smartphones, self-driving cars, and disinfection robots are all examples of AI technology currently being used in everyday life. AI will continue to transform our world at high pace. The world also needs more engineers to bring more advances in the technology and a wider range of its applications. In this talk, we discuss the latest development and applications of AI. We will also look at some careers in the AI industry, and the essential skills and mindset to be an AI engineer.

This talk is under collaboration with the Department of Computer Science and Engineering, The Chinese University of Hong Kong.

## ◆ Schedule

Session	Date	Time	Venue
1	30 Dec 2022	11:00 a.m. – 12:30 p.m.	5/F, T.Y. Wong Hall LT, Ho Sin Hang Engineering Building (SHB), The Chinese University of Hong Kong ( <a href="#">Map</a> )

## ◆ Target Participants

- S1 – S6 HKAGE student members in 2022/23 school year only
  - Class size: 100
- \* First-come-first-served.

## ◆ Pre-requisite

No special prerequisites are needed

## ◆ Medium of Instruction

English with English handouts

## ◆ Certificate

E-Certificate will be awarded to participants who have:

- attended ALL sessions
