STEM Workshop (Level I)

Wetland Park Visit I – Wetland Conservation and Sustainable Development

Instructor: Representatives from Wetland Park

Application Deadline
23 Jun 2023, 12:00 noon

Result Release
30 Jun 2023

Intended Learning Outcomes

Upon completion of the programme, participants should be able to:

1. analyse the importance of wetland on the ecosystem;
2. elaborate the green concept of green architecture and sustainable development in Wetland Park;
3. investigate into different conservation works for wetland;
4. enhance the social responsibility and awareness of wetland conservation.

◆ Introduction

In this Wetland Park Visit, students could learn more about the conservation and management work in wetland, the green building and sustainable development concepts, and related regulations and environmental impact assessment.

In addition to lectures, students will have the opportunity to conduct outdoor field study within the park, firsthand experiencing the integration of green buildings with the natural environment, observing wetland flora and fauna such as reed bed, oyster shell wall, and next box. Staff will also share the daily management of the park, providing students with a deeper understanding of wetland conservation work.

◆ Schedule

Session	Date	Time	Venue
1	28 Jul 2023	2:00 p.m. – 4:00 p.m.	Hong Kong Wetland Park, Wetland Park Road, Tin Shui Wai (Map)
