Cybersecurity Course (Level II)

Cybersecurity in Social Media & Instant Messaging

Representative from Hong Kong Information Security Academy

Application Deadline

12 July 2023
12:00 noon

Intended Learning Outcomes

Upon completion of the programme, participants should be able to:

1. describe the security measures to protect social media and instant messaging accounts;
2. apply the privacy settings to protect information;
3. explain the use of the encryption and secure messaging applications to enhance privacy security;
4. develop awareness in the spread of false information on the Internet and be a responsible information technology user.

Result Release

14 July 2023

◆ Introduction

Social media and instant messaging has become an integral part of our daily lives, allowing us to connect with friends and family, share information, and stay up-to-date on the latest news and events. However, social networking platforms also pose significant security risks, including identity theft, cyberbullying, and the spread of false information.

This course covers explains the risks and associated issues in social media and internet messaging, as well as the security measures that can be implemented to protect themselves from correspondent cyber crimes. Students will learn the essential knowledge to protect themselves one step at a time in this Cyber Security Essential series.
