Environmental Science Workshop (Level II)

Insect's Tiny World

- Microscopic Observation Workshop

Outdoor Wildlife Learning Hong Kong
Professional environmental education tutors

Application Deadline
16 June 2023 12:00 noon

Intended Learning Outcomes

Upon completion of the programme, participants should be able to:

1. raise awareness and interest in insects;
2. learn about the importance of biodiversity through diverse interactive learning activities;
3. actively explore natural ecology in their daily live.

Result Release
20 June 2023

◆ Introduction

This workshop aims to introduce insects through microscopic observation of specimens using Foldscope, a paper microscope. Firstly, students would have a short and interactive lecture on basic insect ecology and taxonomy. Then, students would learn how to assemble and use the Foldscope to observe insect specimens up close under tutor's guidance. Students will learn about the different types of insects found in the area, their habitats, and their role in the ecosystem. Overall, this workshop aims to provide participants with a hands-on learning experience that will enhance their understanding and appreciation of the natural world around them, as well as inspire them to explore and discover more on their own.

◆ Schedule

Session	Date	Time	Venue
1	7 Jul 2023 (Friday)	3:00 p.m. – 3:30 p.m.	Hong Kong Science and Technology Park (Location)
		3:30 p.m. – 4:30 p.m.	

◆ Target Participants

- P4 – S6 HKAGE student members in 2022/23 school year.
- Class size: 30
- Student members would be selected randomly by the computer system. The decision of HKAGE on the result of the selection should be final.

◆ Pre-requisite

No special prerequisites are needed

◆ Medium of Instruction

Cantonese with Chinese handouts

◆ Certificate

E-Certificate will be awarded to participants who have:

- attended ALL sessions
