Dr Ng Hon, Victor, Academy of Data Mindset

Application Deadline
9 Novemeber 2023
12:00 n.n

Result Release
10 November 2023

Intended Learning Outcomes

Upon completion of the programme, participants should be able to:

1. recognize the importance of data literacy skills;

2. acquire skills in data communication to facilitate the development of a data mindset;

3. differentiate between a fixed mindset and a growth mindset; and

4. increase self-awareness of one's mindset and apply a transformative mindset in daily life.

If student members withdraw from the programme after the Application Deadline, the token will be deducted.

◆ Introduction

This workshop is one of the core programmes of the Leadership Training Programme Series, which mainly focus on mindset empowerment.

Change becomes the new normal in this evolving and dynamic era. Navigating change and transformation involve complex problem-solving in digital contexts. Cultivating the Data Mindset is essential to strengthening data literacy. Data Mindset empowers students to speak, think and act with data, effectively speaking the data language. The journey of transformation in the digital era is full of challenges. Future leaders need to deal with setbacks to achieve sustainable growth. This requires them to have the Transformative Mindset, which empowers leaders to see difficulties as challenges and to build a habit of success.

This Introductory Module serves as a foundation for cultivating the mindset of future leaders in the digital era, incorporating the Data and Transformative Mindsets to overcome challenges and adapt to changes during times of uncertainty. Students who completed the introductory module will be eligible to apply for the enhancement module.
