The Power of Prompt Engineering : Unleashing AI at your Fingertips to Transform the World

Founder of Iron Future Limited
Mr Michael Leung

Application Deadline

4 Dec 2023

12:00 noon

Intended Learning Outcomes

Upon completion of the programme, participants should be able to:

1. Understand what "Generative AI" is and its impact to the world;
2. Understand the basic principle of "Prompt Engineering";
3. Be inspired to take an active role in career planning in the AI era.

◆ Introduction

The emergence of ChatGPT has sparked public concern and debate about the artificial intelligence(AI) market and generative AI. How far has AI progressed and how can it improve in the future? Will AI replace most human jobs and how should humans use AI?

The advancement of AI technology evokes both excitement and concern among people, yet it is undeniable that AI will become an integral part of human life in the future. Acquiring a foundational understanding of AI theories and developing relevant prompt engineering skills early on will prove advantageous for future career growth.

During this seminar, Mr. Michael Leung, the founder of Iron Future Limited, will provide detailed insights into generative AI and prompt engineering. Interested participants are welcome to join the AI boot camp in Jul 2024 to explore a variety of AI tools to enhance and facilitate learning process.
