## ◆ Gifted Programme Introduction

Although gifted students perform very well in many aspects, they, like non-gifted students, also need to master appropriate methods to deal with challenges and difficulties in all areas of life, so they can effectively overcome their challenges or difficulties. This series of support groups aims to provide professional group counseling and psychological support to our student members. Our psychologists will encourage students to share the challenges and difficulties they face in the group. Students not only can refer to the coping methods adopted by other students but can also receive group counseling and professional advice to face their difficulties. **Although the theme of each session is the same, based on the principle of group dynamics, the interaction effect will be different, and the questions to be raised, discussed, and answered by participants and instructor in each session will also be different. Therefore, applicants may register for one or more sessions at their own discretion.**
