• Academic Introductory Talk Series

Forensic Sciences Talk (Level I)

A Day of a Forensic Expert

Mr Beta Tam

Fellow member of The Chartered Society of Forensic Sciences

Forensic Ballistics Expert

12:00 noon

Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

- elaborate the common principles of forensic sciences or crime scene investigation;
- 2. explain the application of science and technology in analysing different kinds of physical evidence;
- 3. expand their visions in the application of forensic sciences and choices in their future academic and career development.

Gifted Programme Introduction

Mr Beta Tam is a fellow member of The Chartered Society of Forensic Sciences and a forensic ballistics expert who gain much experience in firearms and ballistics forensics as a member of the Royal Hong Kong Police in the 1970s to 1990s, where he was attached to the Forensic Firearms Examination Division and rose through the ranks to become a Chief Inspector. He later worked as a Senior Forensic Scientist for the Wisconsin State Crime Laboratory of US, where he was involved in day-to-day investigation and testifying in court. For his excellence, he was transferred to the Los Angeles Police Department as the Chief Firearms Forensics Training Officer to train the next generation of forensic examiners.

Since his retirement, he has been involved in investigations, research and education as an independent forensic expert from time to time.

In this talk, students will be provided with an in-depth understanding of the fundamentals of forensic sciences, its application and real-life situations.
