Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

1. Acquire a comprehensive understanding of essential concepts related to Law and Medicine;
2. Apply knowledge and understanding of the interconnection between the fields of Law and Medicine;
3. Demonstrate familiarity with the procedures involved in a mock trial and actively participate in a mock trial;
4. Exhibit fluency in discussing social issues that intersect Law and Medicine;
5. Develop a clearer vision of their future career plans.

◆ Gifted Programme Introduction

Law and Medicine are two of the most commonly chosen programmes by students in university. While many gifted students have the ability to excel in these two disciplines, they might not have a clear idea of the connections between them. This programme first provides lectures on both disciplines, and then explores the connections between the two. In the last session, a mock trial on medical law will also be held for students to implement their skills learnt.
