Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

1. craft and present engaging personal stories effectively.
2. apply learned skills through practical exercises like drama games.
3. deliver speeches confidently and using techniques from the actor's training.
4. receive personalized feedback and progress in small class settings.

◆ Gifted Programme Introduction

This course uses an actor's training approach to develop the students' public speaking skills. The ability to speak and communicate clearly is one of the key skills for success and the actor's training approach gives the students ample opportunity to explore, practise and refine their public speaking skills.

In this edition of the course, we focus on skills needed to tell personal stories. Personal stories are especially useful for students who are preparing for interviews, where they will be asked to talk about themselves and to highlight their talents.

This comprehensive course covers both writing and delivery of the speech. Drama games are used to encourage creativity and as exercises to strength the techniques. The course culminates in the final performance of the speech.

The class size is kept small to ensure that students receive personalized feedback and have opportunity to progress during the course.
