Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

1. identify and describe different types of rock in Hong Kong
2. discuss the formation of various kinds of landforms in Hong Kong
3. increase their awareness of the importance of geo-conservation
4. foster a stronger desire to pursue further studies in geography and related disciplines

◆ Gifted Programme Introduction

Did you know that Hong Kong has a geological history of 400 million years?

This workshop comprises a workshop and a guided tour. After an introduction to rocks and fossils of Hong Kong at the workshop, students will visit Rock Academy, a large-scale outdoor exhibition of 28 rock specimens sourced from Hong Kong, and the Geopark Visitor Centre. By playing interactive games and activities, students can learn about the rock types, characteristics, formation of various kinds of landforms in Hong Kong and increase their awareness of the importance of geo-conservation.
