Architecture Course (Level II)

Spaces of the Future - Designs for Humans

To be confirmed

Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

- 1. explain multidimensional nature of architecture and apply multidimensional nature in drawing;
- 2. develop skills in master planning and apply architectural concepts in the architectural layout plans process;
- 3. create a detailed and realistic architectural representation with digital modelling tools and techniques;
- 4. enhance the skills in problem solving, critical and analytical thinkings, and architectural design skills.

Gifted Programme Introduction

"Spaces of the Future: Designs for Humans" introduces students to the basics of how design and architecture influence modern life. This course explores the roles of architects and designers in shaping spaces that respond to human needs, cultural values, and environmental challenges.

Through interactive lessons and hands-on activities, students will learn fundamental concepts of space planning, design principles, and the creative process behind designing functional and meaningful spaces. Students will also get a glimpse of how architecture and design impact the way we live, work, and interact.

By the end of the course, students will have a foundational understanding of architectural concepts and practical skills they can apply to creative problem-solving and spatial thinking.

Schedule

Session	Date	Time	Venue
1	22 April	2:00 p.m. – 5:00 p.m.	HKAGE Room 303
2	23 April		
3	24 April		
4	25 April		Kwai Chung (TBC)

Suitable for

S1 to S6 HKAGE student members in 2024/25 school year

Class size: 25

Medium of Instruction

English with English Handouts

Screening

Please answer the screening question in the online application form.

*The screening question is designed to help the applicant understands the course level and the course content. The question must be answered by the student applicant and it can only be attempted once. The answer cannot be changed once the application is submitted. Selection is based on students' performance in answering the question. Only students who can demonstrate a passion for learning architecture can be enrolled in the programme

Certificate

E-Certificate will be awarded to gifted students who have:

- attended at least 3 sessions; and
- completed all the assignments with satisfactory performance
