## ◆ Gifted Programme Introduction

Unleash your creativity and design your very own literary collection in this Art x Tech summer course!

Over three intensive days, you'll explore a variety of writing styles—poetry, fables, fairy tales, movie reviews, and short stories—while simultaneously learning the art of digital design. Whether you are brainstorming your first poem or refining a complete short story, you'll discover how to use AI tools to enhance every stage of your writing process.

Finally, you'll compile your works into a beautifully designed “Your AI Literary Magazine”—an online and offline publication that showcases your mastery of both writing and design. Join us if you love language, art, storytelling, and design!
