Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

1. Explain the mini 4-wheel drive structure and race concept;
2. Analyze the scientific principles of factors that affect the speed and stability of a 4WD;
3. Analyze the characteristics of various tracks and make suitable modifications;
4. Creatively modify a 4WD to complete a race with speed and stability;
5. Enhance creativity and thinking skills through 4WD modification;
6. Cultivate a positive mindset to challenge various tracks.

If student members withdraw from the programme after the Application Deadline, the token will be deducted.

◆ Gifted Programme Introduction

The course will focus on a technical competition and explaining the important factors of how to increase the speed of a mini 4WD and how to modify it to run on various difficult tracks. The content focuses on hands-on modification and communication as well as encouraging students to use creativity to face new challenges with limited materials. Students verify their learning with various testing and record the results in class. They would improve their self-confidence and thinking skills through the presentation of their 4WD modification review.

Students who have outstanding performance in the selection competition will be invited to join the Phase II Training (E2ENG001C) in August 2025.
