Creative Media Course (Level III)

Where Tradition Meets Technology – Reinventing Culture Through Game Design

TBC

Application Deadline
2 July 2025 12:00 noon

Result Release
3 July 2025

Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

1. Understand the core concepts and aesthetics in traditional Chinese architecture, landscapes, and cultural values;
2. Apply the Unity's tools to create interactive game experiences set in traditional Chinese settings;
3. Integrate 3D models into Unity and configure appropriate settings for game functionality;
4. Foster cultural appreciation by creating immersive animated experiences;
5. Enhance students' skills in technical, problem solving and creativity through the design process.

If student members withdraw from the programme after the Application Deadline, the token will be deducted.

◆ Gifted Programme Introduction

This course series aims to nurture an appreciation of traditional Chinese culture among gifted students while building their skills in game design. It introduces the art, history, and philosophy behind the traditions and the spirit of filial piety, guiding students to design culturally rich game environments and characters inspired by ancient China. Using Unity as the primary tool, students will learn to develop interactive game experiences that immerse players in the values and aesthetics of traditional Chinese culture. By focusing on game design, the course encourages creativity, cultural appreciation, and problem-solving through hands-on projects.
