◆ Gifted Programme Introduction

This programme masters students in illustration with A.I. features. In Phase 2, students will be introduced to the dynamic world of digital image editing and creativity using Adobe Photoshop. Through hands-on practice, learners will master essential photo-editing tools and techniques, from basic retouching and colour correction to advanced visual effects. Also, artificial intelligence (AI) in Photoshop will be highlighted, enabling students to edit and enhance images with efficiency and innovation. Participants will engage in creative exploration, combining design principles with AI-driven tools to produce visually compelling results. By the end of Phase 2, students will not only develop technical proficiency but also cultivate an appreciation for digital artistry and creative expression.

The course consists of **THREE phases**, this is Phase 2. Selection for each phase will be based on students' performance. **Phase 3** are tentatively scheduled as below:
