Intended Learning Outcomes

Upon completion of the gifted programme, gifted students should be able to:

1. explain how Large Language Models work, covering concepts such as the definition and purpose of pretraining, tokenization, finetuning, system messages, context window;
2. explain and practice AI usage hygiene, such as Quality In Quality Out, context engineering, selecting the right model for different types of tasks;
3. create and elaborate ideas fluently and flexibly.

◆ Gifted Programme Introduction

Discover how English creative expression and AI innovation can work hand in hand in this interactive three-day course! You'll explore what Large Language Models (LLMs) really do—not through lectures, but through action. Work in teams to research with AI, craft persuasive speeches, and deliver dynamic presentations about how AI is transforming school life in Hong Kong. Learn how to communicate clearly, think critically, and use AI responsibly. By the end, you'll master the art of combining human creativity with machine intelligence to share “one lesson about AI everyone should know.”
