## ◆ Introduction

The "Career Development Workshop – Summer Academy 2026" is designed to empower students with essential skills, bridging the gap between academic knowledge and professional career planning. This workshop is specially tailored for students who are interested in exploring career pathways in Communication, Art and Design (Group 7).

The workshop consists of two key components:

### 1. Classroom experience.

Through guided sessions ranging from professional broadcast journalism and historical epigraphy to modern generative AI and hands-on craftsmanship, participants will explore how diverse disciplines, from media production to ancient preservation, shape contemporary thought patterns and drive social change. By engaging with these varied formats, students will investigate how narrative structures and cultural traditions influence our understanding of the world. This interdisciplinary exposure to technology, the humanities, and social history aims to cultivate critical thinking, technical creativity, and intellectual insight.

### 2. Experiential Learning

Participants will engage in a variety of out-of-classroom activities to gain a firsthand experience of the vibrant and multifaceted university life at HSUHK, further broadening their perspectives.

\*Lunch will be provided by the HSUHK.
