Gifted Programme Introduction

As one of the core programmes in the Leadership Training Programme Series 2026/27, this workshop focuses on the theme of inclusion.

To truly understand the experiences of individuals with disabilities, students will step into their shoes by navigating community tasks using wheelchairs. They will alternate between the roles of wheelchair user and caregiver, fostering empathy and appreciation for the unique emotions and challenges associated with each perspective.

Students will also participate in experiential activities such as dining out, shopping daily necessities at a supermarket, and visiting local cultural landmarks. Through these experiences, they will gain firsthand insight into the importance of accessibility and universal design.

The workshop also introduces students to personal assistive devices, manual wheelchair operation, and successful international cases of universal design. Group discussions and presentations will further encourage reflection on how inclusivity can be promoted in everyday life. By the end of the session, students will have explored their own roles in advancing integration and inclusivity within the community.
