Application\*\*](#)

**Application Deadline:**  
**22 May 2024**  
**(12 noon)**

**27 May 2024 (Mon)**

**2:30 p.m. - 4:00 p.m.**

Lecture Theatre,  
HKBU Affiliated School Wong Kam  
Fai Secondary and Primary School

## ◆ Introduction

Education for innovation (or simply, innovation education) is a worldwide movement prompted by the need for the transition to an economy of creativity as well as for the changing job market in the age of artificial intelligence (AI). In fact, OECD will soon release the data of PISA 2023 on how developed countries and regions (including Hong Kong) did on a test of creative thinking. Regardless of the results, an easier way of knowing the extent to which Hong Kong students are engaged in creative and critical thinking is to reflect on whether our curriculum has features conducive higher-order thinking, and whether the pedagogical strategies teachers adopt are conducive to distinct personal perspectives and hypothetical thinking.

## ◆ Schedule

Date	Time	Venue
27 May 2024 (Mon)	2:30 p.m. – 4:00 p.m.	Lecture Theatre, HKBU Affiliated School Wong Kam Fai Secondary and Primary School 6 On Muk Lane, Shek Mun, Shatin

## ◆ Expected Learning Outcomes

Upon completion of this seminar, teachers should be able to:

1. Learn a new curriculum model aiming to promote creative and critical thinking while engaged in academic learning.
2. Acquire a checklist of what happens in classroom or school which can be used to gauge the extent to which we are truly heading toward an innovation education.

## ◆ Target

- Teacher
- Quota: 120
- First-come, first-served

## ◆ Language

- English

## ◆ Fee

- Free
